Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

Dhanush M J

Communication should be universal without any barriers or limitations.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

PROBLEM Today generation, many specially abled peoples are faces many problems and they have many goals to achieve and not to communicate to others

Encourage wild ideas.

If possible, be visual.

Listen to others.

Key rules of brainstorming To run an smooth and productive session

Stay in topic.

Defer judgment.

supported to develop an effective, efficient and reliable means of independent communication speak directly to the person rather than the person with them

Gowri Shankar p Since normal people are not trained on

In emergency times conveying their message is very difficult. hand sign language. It is very difficult for mute people to convey their message to

normal people.

Research institutions and medical facilities are using the ability to analyse massive, data ... sets to sequence the human genome

Communication should be universal without any barriers or limitations.

Developing an app will support this vulnerable society of impaired people and enhance communication among people. Our objective is to blend deaf and dumb within society and make them able to use their per sonal computers more effectively and efficiently houral not works can solve somewhat complicated issues at a much easier level concerning the complicity of algorithms

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.
